

prvi partizan

Henry Krank

PPU (Prvi Partizan) is one of the oldest, largest and most versatile ammunition manufacturers in Europe.

PPU's factory is located in the city of Uzice in southwestern Serbia. Manufacturing ammunition since 1928 and supplying ammunition to the armed forces and police of Serbia as well as many other countries. In addition to that, PPU also produce sporting and hunting ammunition.

The quality of our products is always PPU's priority and to that end they utilize only the most modern equipment and machinery. Through years of research and innovation PPU have managed to develop a wide assortment of ammunition, which will suit the needs of the most particular users. Thanks to rigorous quality control and precise workmanship PPU deliver highly reliable ammunition with high performance characteristics.

## RIFLE BULLETS KEY:

SP	<b>Soft Point</b>		Standard bullets designed to provide controlled expansion when penetrating.
PSP	<b>Pointed Soft Point</b>		Featuring a sharp lead nose which causes bullet expansion upon impact.
SPBT	<b>Soft Point Boat Tail</b>		Have a specially shaped back part with reduced diameter (boat tail) that lowers air drag.
PSP BT	<b>Pointed Soft Point Boat Tail</b>		The better ballistic coefficients of these bullets allow successful shooting at longer distances at which the bullet maintains striking energy.
SP RN	<b>Soft Point Round Nose</b>		Featuring a blunt rounded nose and are suitable for short range shooting, especially in the bushes or woods.
FSP	<b>Flat Nosed Soft Point</b>		A flat lead nose with increased diameter. These bullets are suitable for use in carbines with tubular magazines.
HP	<b>Hollow Point</b>		These bullets are designed primarily for shooting competitions.
HPBT	<b>Hollow Point Boat Tail</b>		Bullets that have higher ballistic coefficients because of their smaller meplat, long oval and boat tail design.
FMJ	<b>Full Metal Jacket</b>		Non-expanding bullets with a full-length jacket operated at the base only.
FMJ RN	<b>Full Metal Jacket Round Nose</b>		Rounded nose, suitable for short range shooting. They provide maximum penetration when hunting dangerous game.
FMJ BT	<b>Full Metal Jacket Boat Tail</b>		These are specially shaped bullets designed to reduce air resistance.

## RIFLE MATCH BULLETS:

HP BT	<b>Hollow Point Boat Tail</b>		Higher ballistic coefficients, smaller meplat. Features a long oval and boat tail design.
FMJ BT	<b>Full Metal Jacket Boat Tail</b>		Specially shaped bullets designed to reduce air resistance.
